OBJECTIVE

As a fresh web development enthusiast, my objective is to apply my knowledge and skills in HTML, CSS, JavaScript, and React.js to contribute effectively as a web developer. I am eager to learn and collaborate with experienced teams to create user-centric and innovative web solutions. My goal is to grow as a professional web developer and make a positive impact in the industry.

| Back-End Skills | Node.js, Express.js, MySQL, MongoDB, C++ |
| Platforms and Tools | Linux, Bash Scripting, Git, Docker |

PROJECTS

College Application Academic Project
HTML, CSS, React.js, Node.js, Express.js, MySQL, PWA *Current*

- Currently developing a progressive web application (PWA) for a College using React.js, Express.js, and MySQL.
- Aim to create an all-in-one platform that facilitates seamless communication between students, faculty, and administration.

ChatBot Website Personal Project
HTML, CSS, React.js, Express.js, OpenAI API *2022*

- Developed a fully functional chatbot website using React and integrated the OpenAI API for natural language processing capabilities.
- Implemented a user-friendly interface allowing visitors to interact with the chatbot to get responses to various inquiries.

Portfolio Website Personal Project
HTML, CSS/SCSS, JavaScript *2022*

- Designed and developed a personal portfolio website to showcase my projects and skills using HTML, CSS/SCSS, and Vanilla JavaScript.
- Created a modern and responsive user interface to ensure an optimal viewing experience across different devices.

SIP Calculator Personal Project
HTML, Bootstrap, Anychart.js *2021*

- Developed a user-friendly SIP calculator website to help investors plan and visualize their Systematic Investment Plans using HTML, Bootstrap, and AnyChart.js.

EXTRA-CURRICULAR ACTIVITIES

- Completed FreeCodeCamp curriculum [Responsive Web Design](#).
- Completed FreeCodeCamp curriculum [JavaScript Algorithms and Data Structures](#).
